PAPER

**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

**ADVISORY ACTION**

***Response to Arguments***

The amendment filed on April 12, 2010 under 37 CFR 1.116 in reply to the final rejection has been considered but is not deemed to place the application in condition for allowance and will not be entered because: the proposed amendment raises new issues that would require further consideration and/or search. The amendment has not been entered for the following reasons:

The amendment adds a new limitations to the method of claims 1, 11-12, and 43 and adds new claims 60-69, such as producing a "mature polypeptide" with arylsulfatase A activity, modified steps in producing said polypeptide, and a method of preparing a pharmaceutically acceptable formulation comprising said polypeptide. Therefore, the newly amended claims and newly added claims warrant further consideration on these newly incorporated limitations, necessitating a new search in the prior art and/or a new rejection.

In view of the non-entry of the above amendment filed on January 12, 2010, all previous rejections are maintained for reasons of record.

None of the claims are allowable.
